CMB-573

# Hardware Installation:

## <Motherboard placement>

*For the Components placement, it is available for CMB-573BIR*

I/O panel:

Front:

Rear panel:

**1. Screw off as indication of the picture below.**

A black, rectangular electronic device, likely a power supply unit, is shown from a top-down perspective. Two red circles are drawn on the top surface, one near each front corner, highlighting the locations of the screws used to secure the top cover. The front panel features a USB port on the left, two indicator lights (yellow and green), and two push buttons (red and blue) on the right.

2. Push the Chassis shield towards the back then open it.

3. Screw off as indication of the picture below.

4. Turn the CPU cooler screws and then refer the motherboard manual page.17 to install the CPU.(After installing CPU, please turn the CPU FAN screws to tighten.)

5. Insert the DDRII SO-DIMM module into the socket at 45 degree.  
Press down the module with a click sound.

6. Put on HDD driver into HDD holder then turn the HDD drive screws to tighten.

7. Screw on as indication of the picture below Turn the screws.

8. Push the Chassis shield towards the back then open it.

9. Screw on as indication of the picture below.

Rear:

Top:

10. Finish.
